SANTOSH
BHATTARAI
Software Engineer

ABOUT ME

I am an undergraduate Software Engineering Student (2018 Batch) at Nepal College of Information Technology. I am expected to graduate in 2023.

EDUCATION

Software Engineering

Nepal College of Information Technology
Pokhara University
2018-2023 (Expected)

High School

Goldengate International College
National Education Board
2016-2018

KNOWLEDGE

Backend Development

Frontend Development

Data Manipulation

Data Visualization

Machine Learning

TOOLS/TECHNOLOGY

PYTHON

Django
Numpy
Matplotlib
Scikit Learn

JAVA

Spring Boot

SQL

PROJECTS

BHOKLAGYO

A web-based project on food delivery service. It allows a user create and update orders. A restaurant admin can manage the menu of the restaurant and view orders received and orders delivered. Customer can mark the order 'received'.

SANOLAGANI

A web-based platform to allow the startups raise funds by offering equity of the company in exchange of the capital.

TRAINING/COURSES

CORE PYTHON AND DJANGO

Underwent a three-months training on core python and backend web development with Django.

SEMINARS/WORKSHOPS

MACHINE LEARNING AND DATA SCIENCE BOOTCAMP

Attended a 7 days webinar on machine learning and data science. Had an opportunity to learn about the use, challenges and scopes of machine learning and data science to solve the emerging problems and rediscover the solution to traditional problems using the modern technology.
